

e-cloth microfibre mop

features

- perfect cleaning of all hard floor areas with just water
- clinically tested and approved to remove 99% of all bacteria.
- high performance – cleans better than chemicals and leaves no residue
- significantly reduces operating costs – use of chemicals can be reduced by up to 90%
- the weave and fibres of the deep clean mop head are designed to break up and hold thick grease and dirt which ordinary mops leave behind
- dusting mop head available – for initial removal of dust and loose dirt on hard floors, before using the Deep Clean Mop. Quicker and easier than a vacuum cleaner
- wafer thin mop head for easy access under most appliances
- telescopic handle extends to 1.5 metres in length
- velcro strips for easy attachment of heads to base
- good for 300 washes

colour

blue, silver, white
